AGRICULTURE - Co-operative Farming in zamindari and new project areas - Scope - Papers recorded.

DEVELOPMENT (P&D II) DEPT.

The file deals with consideration of the scope for co-operative farming, particularly in the erstwhile Zamindari areas and new project areas like the Tungabhadra and Lower Bhavani. At the instance of Chief Secretary the subject was examined in 1949-50 in consultation with the other concerned departments and also considered by the Officers' Planning Committee (now defunct). The Committee suggested that a comprehensive note on the subject with particular reference to experiments in foreign countries might be prepared. About that time the Agrarian Reforms Committee appointed by the All-India Congress Committee had published its report. This report inter alia dealt with co-operative farming. The report was referred to the Land Revenue Reforms Committee and it was decided to await the recommendations of this Committee in regard to co-operative farming.

The Land Revenue Reforms Committee has since submitted its report. Co-operative farming is dealt with in Chapter VII of the report. The remarks of the R.C.S. and the Board of Revenue in this regard have been obtained and the recommendations of the Committee are under consideration in the Revenue Department.

The question has been under consideration in the Revenue department for the past one year but no decisions have been taken so far. It is likely that this may take some considerable time. This case was kept open with a view to submitting a report to the Officers' Planning Committee, with reference to the proceedings on p.7 c.f. But the Committee itself has since ceased to exist. Further, after the Government have taken decisions on the recommendations of the L.R.R.C., all aspects of co-operative farming will be further examined in B.II section and suitable action taken. It does not seem therefore necessary to keep the

file open any longer. The papers may be recorded.
